Fragile moments of nature are captured in design

Collection Dreams

FabGoose's new collection called Dreams is designed by Rugiada Petrelli and consists of 4 designs: Frozen, Dew, Mist and Clouds.

The collection is about the fragile states of nature that you feel so lucky to experience from time to time, and then you cherish this beauty in your memory for several days. The mist at the sunrise that disappears so quickly, the dew on the grass or some drops on the spider net, the random and so captivating drawings of frost on your window, or the ever changing shapes of the clouds.

Rugiada's designs are all about this fragility that comes to life in these immediate patterns.

All these beautiful patterns are implemented in our super soft brushed cotton blankets that we produce in Germany. A premium quality products that can be used and washed again and again.

Blankets and plaids are available in size 75x100 cm, 120x150 cm and bed covers in size 150x220 cm. Knitted cushions in Premium Italian woolen mix are in size 50x50 cm.
