The Gift Of Stories To Be Told

- Adventure, excitement and nostalgia defines Fabulous Goose's new range of cute 'Stories' blankets for babies and children

Scandinavian label Fabulous Goose (www.fabgoose.com), producers of luxurious design-led textiles is launching a new gift collection of blanket for babies.

The 'Stories' collection comprises ducking soft premium brushed cotton blankets designed with a cultural diffusion of eclectic ethnic patterns and prints that allude to a story, an adventure, a journey. Loud geometric patterns convey a feeling of energy and dynamism symbolic of travel and the excitement of visiting new and foreign lands. These tribal inspired prints and motifs have been reworked for the aspiring modern day global nomad.

Available in a presentation box with a gift card, Fabulous Goose's 'Stories' collection is the perfect present to a newborn or child. To gift it is akin to sending a special wish to a beloved little one – a wish for a life filled with happy stories and new adventures; an heirloom blanket that will be loved right through to adulthood and come to represent more than just a snuggly comforter – it will have nostalgia interwoven into its very fabric. It will harness cherished moments and a sense of contentment that will give pleasure forever.

The 'Stories' collection complements Fabulous Goose's existing range of beautiful woven and knitted blankets, throws and cushions for the modern home and for all the family. Made with organic cotton and coloured with gentle, natural, non-toxic dyes, Fabulous Goose's gorgeous textiles are as gentle and caring as skin-on-skin contact and uses materials that have been derived from nature and made in the most sustainable and gentlest way possible.

Choose from "Forest", "Aqua", "Happy", "Classic" and "Flamingo" designs. 'Stories' blankets RRP 75 euro.
